

## 2018 Ministry Trip Report

This summer we were able to travel to several different communities for ministry purposes.

In the beginning of June, we traveled from Chilliwack to Dease Lake and back to attend the 20<sup>th</sup> Annual **Stikine Valley Gospel Music Festival**. This Festival, though music based, is more a Camp Meeting style of event with preaching, ministry and prayer ministry taking place throughout the entire weekend. We assisted in various events of ministry. The event was a healing time for many, and there were four baptisms that took place that weekend.

At the end of June and going till July 22, we attended three Camp Meetings in Northern Alberta. The first one was a ten-day event at **Kikino** and we went to be prayer and counselling support. However, we were privileged to also preach and teach for several sessions and to assist in a baptism. The second one was in **Sturgeon Lake** and, though it was another ten-day event, we only stayed for the first three nights. The third was at **Maskwacis** and was a four-day event. In all these events there was a real move of God taking place and people were set free.

It was exciting to attend these events and to meet new people. We believe we were a blessing to them, just as they were to us. We are also believing that doors of opportunity have been opened for future relationships and ministry.

As you can imagine, there were costs associated with this type of travelling ministry. We took our 5<sup>th</sup> wheel trailer and so reduced our accommodation and meal costs, but these trips add up to 7000 km of travel, which means a lot of vehicle costs (Federal government rates of \$.52 per km for vehicle costs means it works out to over \$3600.) **IF YOU CAN HELP SUPPORT OUR MINSITRY ACTIVITY, PLEASE CONSIDER DONATING BY CLICKING ON THE DONATE BUTTON. It is only by your support that some of these more isolated communities can be ministered to.**
